FROM THE DESK OF CHAIRMAN

We live in a fast-moving world where almost everything must come instantly to us. In this computer era, we depend on the computer to help us complete tasks, and to solve problems. Computers are used in various fields like business, pharmacy, music, education, engineering, defense, transportation, and cooking as they help to ease certain tasks, provide information faster, and speed up the work.

The 60 percent of Indians whose primary occupation is agriculture, we have reached to them to individually taught how to use internet and computers as a medium to improve their agricultural practices and use the technological advancement to the best of their interests.

If the rural population in India learns to Google, the face and demographics of our motherland shall technically and ironically go under a plastic surgery. With the setting up of Computer Centers in villages in the rural India, our mission is to make a dramatic and strong wave of advancement that will fuel development.

I congratulate our associates and franchises to make this mission valuable and useable for the learner and for proving such a practical and employment generating education.

I also congratulate all my team members, governing body and my staff to make this institute an epitome of knowledge. I look forward to incorporate the latest in the curriculum and pedagogical techniques.

You see things; and you say 'why;'

but I dream things that never were;

and I say 'why not?'

GRAMIN SHIKSHA is registered under Society Act 1860 of Govt. of Haryana & Indian Trust Act 1882 is providing practical trainings related to Computers, Accounting and Entrepreneurship Development.

Great philosopher & scientist of all time Albert Einstein once said "Imagination is more important than knowledge, knowledge is limited ,imagination encircles the world".

These words of great visionary inspired us to start our organization Information Technology Resource Centre **(GRAMIN SHIKSHA SOCIETY (REGISTRATION NO-DRFS/FTH/131)** and subsequently received the Accreditation of various Universities of India. The top management of Gramin Shiksha Society continuously strives for providing new opportunities to its centers as well to its students. Keeping pace with fast changing education and economic scenario as well as the market demand.

OUR JOURNEY TOWARDS PURSUIT TO PERFECTION

During the short span of time, GRAMIN SHIKSHA has proved itself as a premier organization in the field of Computer Education & Vocational Training by providing Job Oriented short and long term courses in both software and Hardware fields. For its State of the Art Facilities, high quality curriculum and study material Gramin Shiksha has been awarded an International Quality certificate ISO 9001:2008 by the very renowned international body DAC International. Gramin Shiksha also achieved many Awards and recognitions. Today we have got very extensive and wide network of authorized training centers.

POLICIES TOWARDS QUALITY

We at our end are very particular and sincere about the policies towards quality of our overall system. Be it about the quality education or about the continuous support to our valuable franchisee partners it matters us a lot. We have very clear cut policies and guidelines for keeping up-to-date to our standards and level of study programs without any compromise. As far as our study programs and material are concerned we have Zero tolerance policy.

OBJECTIVES

GRAMIN SHIKSHA was established in the year 2010, with the sole objective of providing and promoting computer education, and creating awareness regarding Information Technology among masses. Its motto is "Gaon Shikshit- Bharat Shikshit". The main area of its work has specially been villages and backward areas, because this is where the major population of our country resides and the people residing there are the ones who can actually utilize the knowledge of Information Technology for improving the quality of their life and increase the standard of living. Also it aims to develop small entrepreneurs who can impart IT education in local area in local language. GRAMIN SHIKSHA has been working on self-finance basis without taking Any financial help from the State or Central Government.

GRAMIN SHIKSHA was formed with the following objectives :

♦ Promote entrepreneurship
♦ Impart training in the field of computer & vocational, Accounting, EDP etc.
♦ Create awareness regarding Information Technology among school students.
♦ Provide Job-Oriented short-term training to unemployed youth.
♦ Assist the students of backward communities in developing vocational skills.
♦ Provide EDP training to employed as well as unemployed youth in association with government or semi-government bodies.
♦ The organization has helped over 700 persons who are now self-employed and are further providing employment to another 400 faculties.
♦ Vocational Education for **SKILLED INDIA**.
